Price is \$2.95/lb, plus the \$4.00 turkey processing fee.

Name: \_\_\_\_\_

Address: \_\_\_\_\_

Phone: \_\_\_\_\_

Email\*: \_\_\_\_\_

\*email is the most efficient way for me to communicate with you for delivery details and dates.

- 
- Each year we LOCALLY hatch and raise our own strains of heritage turkeys. They include Bourbon Red, Sweetgrass, Bronze and Heritage White varieties.
  - These birds are true sustainable, farm-type birds, as they can naturally reproduce, which the man-made commercial white breeds are unable to accomplish any longer, due to their enormous size.
  - These are truly free-range, roaming our pasture at will, enjoying the grass, clover and grasshoppers!
  - We also mix our own fresh feed using organic and transitional grains.
  - They are a smaller size bird than the commercial white, and are more balanced in their body structure vs. the nearly "all-breast" commercial strains.
  - Cooking suggestions are included with each bird, or can be found at our website, <http://www.nebraskaheritage turkey.com/Cooking%20Suggestions.htm>
  - Birds are flash frozen and delivered to Omaha on or about November 20. Likely delivery locations will be 61st and Maple at Jane's Health Market, and S. 156th and W Center Rd, at "Tomato Tomato's" storefront.
  - To place a reservation, complete this order form and mail in with a \$10 deposit. Checks, cash and credit cards will be accepted for the final purchase amount.
  - Feel free to contact me with any questions - I am happy to help!
  - Due to government regulations, I can only accept orders within Nebraska at this time.
